How soon do they need it? At this time Greg has asked Knepp to look for space. I estimate about 10k to 15k sq foot with parking. When the trailers are set up and HCI can move someone from A branch to Charlie. Greg and I can move north and recon.

Does the 100 people estimate include our unified command partners or is that just an estimate of the EPA personnel? Please include Serdar in any meetings you may be having regarding this.
